

What is EarnX

What is EarnX ?

Earnx is involved in cloud mining and crypto trading, which enables our company to earn cryptocurrency without mining hardware, software, electricity, or bandwidth. EarnX ensures not only the quickest and most exciting returns on your investments but also the security of your investments.

What Is the Earning Process for EarnX?

Step: 1 Make an account and deposit USDT coins into it.

Create an EarnX account using only your email address. You can add balance to your EarnX account via USDT (ETH, TRX) coins.

Step 2: Decide on a Plan and Make an Investment.

There are 3 types of investment plans in EarnX. Monthly Plan, Hourly Plan & Fixed Deposit Plan. Choose your plan and invest to get a profit.

Step 3: Receive Your Profit Amount and Withdraw Instantly **Step 3: Receive your profit and withdraw it immediately.**

Your profit appears on the user dashboard. You can withdraw your amount at any time. You will get an instant settlement of your withdrawal.

With referrals and tasks, you can earn an extra passive income without any investment. That is available on the user's dashboard.

Our goal is to provide our investors with a reliable source of high income while minimising any possible risks and offering a high-quality service, allowing us to automate and simplify the relations between the investors and the trustees. We work towards increasing your profit margin through profitable investment. We look forward to you being part of our community.
